Krishanu Biswas

Enterprise SaaS Implementation & Operations

https://www.linkedin.com/in/krishanu-biswas-09b221222/ · India

Enterprise SaaS and customer operations professional with hands-on experience in LMS/content migrations, platform implementation support, QA, and workflow automation. Background in Trust & Safety operations at scale before moving into SaaS implementation. Comfortable translating customer requirements into structured delivery work, and curious enough to build small automation tools when a repetitive process is worth fixing.

EXPERIENCE

Managed Services Associate, Professional Services · Mindtickle

Oct 2024 — Present

— Supported customer onboarding and post-go-live troubleshooting for enterprise accounts
— Contributed to LMS and SCORM content migrations, including module mapping and asset handling
— Performed migration QA: validation passes, exception tracking, and issue resolution
— Worked within Content Center workflows for structured content delivery
— Wrote SOPs and playbook documentation to standardize recurring migration and support tasks
— Explored and applied automation-assisted approaches to reduce repetitive manual migration work
— Coordinated with customer stakeholders and internal teams to keep delivery on track

Trust & Safety Associate (Meta account) · Accenture

Nov 2021 — Oct 2024

— Applied platform policy to content review decisions under quality and turnaround standards
— Worked on quality improvement and escalation handling within a structured operations environment
— Collaborated with vendor and cross-functional teams across a global operating model
— Contributed to process-consistency efforts across a high-volume operations workflow
— Built foundations in risk-aware decision-making that carried into later SaaS operations work

EDUCATION

Bachelor of Science, Nanoscience and Technology

Undergraduate

Higher Secondary, Computer Science

Secondary education

Alongside education: Freelance website development (WordPress), including managing an independent site, indiaisviral.in, plus early work in SEO, content writing, ghostwriting, and digital marketing — self-directed learning that ran in parallel with formal education.
